## Attention Toxicologists!

Health Canada is looking for candidates with a Bachelor's, Master's or a Doctoral degree to staff various positions in the Health Products and Food Branch. We are looking for science graduates with degrees in biology, chemistry, pharmacy, pharmaco-epidemiology, toxicology, bio-medical engineering, biostatistics, medicine and other related fields.

This Branch is home to high calibre scientific staff working to help increase timely access to safe and efficacious health products that include but are not limited to pharmaceutical drugs, biotherapeutics, vaccines and medical devices. Before being offered for sale, these products are assessed for clinical efficacy and quality. After products are on the market, they continue to be monitored for their safety, quality, and effectiveness. Scientific evidence submitted to Health Canada is reviewed to determine whether the benefits of a product outweigh any risks associated with its use. An increase in numbers of health products submitted for approval to Health Canada as well as technological advancements in the field of product development and testing has created a challenging, stimulating and rewarding work environment. Health Canada currently has opportunities for exciting careers in health product regulation including pre-market assessment as well as post-market surveillance, compliance and enforcement.

To meet current and future needs, Health Canada is creating an inventory of candidates, which managers will be able to access as needed for further assessment, and possible job offers. Current opportunities exist in the National Capital Region. Preference may be given to Canadian Citizens. Please indicate on your resume, the reason for which you are entitled to work in Canada: Canadian citizenship, permanent resident status or work permit. If you wish to apply, please e-mail your resume and a one-page cover letter clearly indicating why you would be suitable for a position (e.g. education and any other related experience). Questions and applications should be sent to: [Graduates-Recruitment@hc-sc.gc.ca](mailto:Graduates-Recruitment@hc-sc.gc.ca). In keeping with our commitment to diversity, we encourage all persons with disabilities to apply. Only those candidates considered for further assessments will be contacted.

We look forward to receiving your application and thank you in advance for your interest in working at Health Canada. We wish you the best of luck in your career search!

*Health Canada is proud to be named one of Canada's Best Diversity Employers  
and one of the National Capital Region's Top 25 Employers for 2010.*
